Grade 3 Mystery Tour

On Sunday 10th January Grade 3 went on a mystery tour to the far end of Bashundhara as part of their tuning in activity for their current Unit of Inquiry 'Where we are in place and time'.

It was a great trip. Students were fully engaged in experiencing what exploration is like using their observational skills. Students drew a route map to their final destination and used their map to get back to the starting point. Here are some pictures of the mystery tour.

Meet our Staff

Profile: Dina Ashfaq

Teacher: Grade PKA

Place of Birth:
Dhaka, Bangladesh

Embarrassing moment:
When I met one of my very close friends, she hugged me and started to talk to me but I gave a blank look to her, because I forgot her name

Quirky question: Which one comes first chicken or egg?

Dates to remember:

21st Jan:
SRC, "Executive" Non-uniform Day

Preparing for the Exhibition—Grade 5

Over the past month the Grade 5 students have started to work on the Primary Years Exhibition or in other words, the PYP Exhibition. The PYP Exhibition is a big project which requires the use of all the learning the students have learnt in their time in the Primary Years.

This Exhibition will be about saving energy and how energy wasting affects the Earth. This Exhibition will teach many people including your children about how to save energy and about the Earth. This year's Exhibition will be held on the 12th of May 2010.

The grade 5 students are working really hard on the Exhibition and I sincerely request all parents to come and watch / support everyone who will work hard towards the making of the Exhibition.
Riyadh Hossain Grade 5S

Peer Meditation Programme—Grade 5

As part of our first unit in Grade 5 "Finding peaceful solutions to conflict leads to a better quality of human life". We found out that disagreement, arguing and conflicts were all happening in our school. We surveyed lots of classes and found out that almost everyone has conflicts with their peers but few of them can solve it by themselves, and most rely on their teachers. The fifth graders thought that it is time to take some action so we developed a Peer Mediation that starts this week at ISD. Peer mediation is a program where fifth graders help other students to solve their conflicts on the playground. This will help to make us more responsible, confident and independent, and help others to learn to solve their conflict on their own. It will make ISD a more peaceful school. We hope that our programme will be successful.
